Subject: City-wide Edmonton Public Schools engagement sessions

Dear Jasmin,

Edmonton Public Schools will be hosting city-wide engagement sessions May 6-9 to hear ideas from families and community members about how we should place alternative programs in schools and how we get students to these programs.

We were hoping you could share the attached poster with the presidents of all community leagues in hopes that we can help generate more awareness for the engagement sessions. Information about the engagements is posted on the [Edmonton Public Schools website](#) and we'll be posting updates on our [Facebook](#) and [Twitter](#) accounts, in case leagues would like to share them on their social media accounts.

Thank you in advance for helping us get the information to leagues to share with families, as we're trying to reach families that don't have kids in school yet as well.

Thanks,
Erin
